

SITE	DESCRIPTION	ES	MS	HS
 <a href="#">Midnight Music</a>	- If you haven't checked out this site yet, you really need to take some time and explore. Founder Katie Wardrobe shares so many resources, ideas and lessons for integrating music and technology on this site.	●	●	●
 <a href="#">Kiddovate</a>	- Kiddovate is a great source for creative thinking prompts! Be sure to download their free app, but then swing over to their blog where they have lots of ideas and activities that they post for free as well.	●	●	
 <a href="#">Genius Hour Innovation Class</a>	- If you'd like to implement a Genius Hour in your classroom this year, you've GOT to check out this site. It's a free course/resource with everything you could possibly need to get started or to take your efforts to the next level.	●	●	●
 <a href="#">The Creative Classroom</a>	- We also showcased John Spencer's book <i>Launch</i> . We're bringing you his website because it's just that good. Be sure to check out his "Sketchy Videos" area. Powerful learning comes in small video packages!	●	●	●
 <a href="#">99U Video Library</a>	- Featuring experts like Brene Brown, Chris Anderson, and Clive Wilkinson and focus on everything from design, busting through blocks, and how to fail forward. Inspirational and educational. Bonus: some of these could be a great video to show at the beginning-of-the-year PD days!		●	●
 <a href="#">BoomWriter</a>	- Looking for a way for students to collaborate on story creation, ideas, and even projects? This is a great free web-based tool to explore.	●		
 <a href="#">Lucidpress</a>	- Need to create newsletters, updates or syllabi for your classes and want them to look their best? Try LucidPress - this is super easy to use and they offer a free educator upgrade. So you can use it for your classroom and your students can use it to design their next project.		●	●
 <a href="#">Project Noah</a>	- Project Noah was created to provide people of all ages with a simple, easy-to-use way to share their experiences with wildlife.	●	●	●
 <a href="#">FlipQuiz</a>	- If you love to add some gaming to your classroom, or want to use game-style templates for review and assessment, this is a great free website to use. You can use the pre-made boards they have or create your own.	●	●	●
 <a href="#">MySimpleShow</a>	- If you are considering trying some more flipped classroom lessons (having students view the lesson prior to class so you can get hands-on right from the get-go), this is a great tool to consider.	●	●	
 <a href="#">ChromeExperiments</a>	- This is an arts integration and STEAM lovers dream. The front page isn't all that exciting, but if you click on the "Themes" tab at the top, you can sort by design, music, fractals, 3D, Virtual Reality and more.		●	●
 <a href="#">Agency by Design</a>	- This is a web resource for teachers interested in maker education. The group shares "the promises, practices, and pedagogies of maker-centered learning" on their blog and practical ways to use thinking routines in the maker classroom.	●	●	●
 <a href="#">TES Lessons from Blendspace</a>	- This website allows you to browse crowd-sourced lessons from other teachers in all kinds of content areas. You can curate your own lesson/unit board with both your own lesson plans and lesson resources from others.	●	●	●
 <a href="#">Soundation</a>	- This is a free online recording studio that you can use anywhere. Students can collaborate on a piece of music and not even be in the same room. Compose, record and produce in one spot.		●	●
 <a href="#">SF MoMA Teacher Resources</a>	- This section of the San Francisco MoMA site for teachers is a goldmine! There are articles you can select and read with students, video interviews, project ideas and an entire section dedicated to STEAM.	●	●	●
 <a href="#">Presently Gifted</a>	- This site offers so many rich ideas and methods for engaging gifted and talented students. And, most of the strategies can be adapted for use in arts classes as well.	●	●	
 <a href="#">Academic Earth</a>	- This is an open educational resources site - meaning what you find here is free to use. This is centered more for secondary classrooms, but the courses/playlists and journals are great professional resources.		●	●
 <a href="#">Cult of Pedagogy</a>	- If you're looking for a great weekly read from the teacher's perspective, this blog is a must. We especially loved the Pineapple Charts for PD idea that Jennifer Gonzales shared!	●	●	●
 <a href="#">curious.com</a>	- This one is JUST for you. Learn about almost anything you want, personalized to your strengths, challenges and interests.	●	●	●
 <a href="#">The MET's Culinary Art Tours</a>	- This site provides a fantastic idea for how you can weave together aquaponics, culinary arts, science and visual art. Use it as inspiration for your own efforts!		●	●
