

Support for English Language Learners

Each English Language Learner needs a different amount of support in the classroom. Modifying for ELLs generally fall within 3 components: Content, Instruction, and Assessments. Here's how you can support ELLs with arts integration and STEAM lessons in each component:

Content Suggestions

Print the student resources from the lessons and give to students ahead of time.

Provide the **graphic organizers** from the Resource Library.

Print the Key Vocabulary Terms from the lesson and add icons or images.

Post anchor charts from the Resource Library to help students visually understand content.

Instruction Suggestions

Use the videos, music, and artwork in the lessons to **reteach concepts**.

Allow students **extended time** when using the writing guides included in the lessons.

Give both **oral and written directions**.

Use the **group work and pairing** options during the Main Activity of each lesson.

Assessment Suggestions

Offer speaking opportunities by having students **read their answers to a partner**.

Provide options for **drawing or speaking** rather than writing responses.

Read the assessment and activity **instructions orally**.

Shorten the length of the written response on any Accelerator assessments.
